Dinan Confesses to Aiding Schmitz.

Chief Used Police to Tamper With Talesmen Called to Try Mayor.

Climax to Series of Revelations That Have Astonished Bay City.

Accused Official Lucky If He Gets Off With the Loss of His Job.

S AN FRANCISCO, May 20.—Excitosive Dispatch.! Chief of Police Jerry Dinan made an amazing concession this afternoon, admitting that he is using the San Francisco police to tamper with the Schmitz jury. Harassed, confused, at bay and too thick-headed to equitm out, poor old Jerry blurted it out to a newspaper reporter today. He said he had been sending out sleuths to "find out about" the men who have been summined for jury duty at Mayor Schmitz's trial.

Dinan's confusion is the climax of a series of revelations that have astonished the city during the last few days. Two jurors have received messages and visits from mysterious emissaries of the police department. All this was for the object of finding out their leanings as to the guilt or innocence of Mayor Schmitz.

Beginning with the discovery that San Francisco Musicians' United States troops, thirties or ingers' on the Schmitz jury and prevent the subposensing of talesmen not satisfactory to the Mayor and his attorneys.

of Minister La Finur's acts and requesting to be allowed to bring immediate legal action for slander and defamation of character against the minister.

Dr. La Finur was presented to President Roosevelt, January 4, 1967, as Minister to this country from Uruguay. Señor Pedro Requena Bermidez, for several months previously, had charge of Uruguayan affairs in this country.

According to Lieut. Saez. Dr. La Finur began imposing gradually an increasing series of perfunctory duties upon him.

As Lieut. Saez does not live at the importance of his official visit, and was not very careful in the performance of his official visit, and was not very careful in the performance of his official visit, and was not very careful in the performance of his official visit, and was not very careful in the performance of the other particular duties which he reasoned the Minister La Finur and his section for a row which is going on between Minister La Finur and his section of \$10 which he in-the march led to the longiation of \$10 which he in-the march led to the longia for foreign born Americans, where table and wote to a friend in his country.

The Minister La Finur his country from the penalties of their crimes that the second to his post the prosecutions to take the public into their orimedact that the at least to offset the false statements which exist between some of Bermudez to did the Minister that he was not located to come out into the street. The moment a politician is charged with crime, the cry is made by firm-name of the other particular duties which he reasoned the Minister has no located the minister and his section of a row which a sent word to his government that he wishes to be immediately recalled from the interview.

The Minister La Finur and his section of the other particular duties which he reasoned the Minister has no located the Minister that he was not located the Minister that he was not located to come out into the irremtant the testent that he as not located the minister. Señor Fossalba, now in the promoted

of alleged grafters.

ARRAIGNS THE WEALTHY.

"At that time, most of the banks and most of the merchants and many and most of the merchants and many of the wealthy men who are now denouncing us were loud in their praises. They wanted then to see 'all grafters sent to the penitentiary.' We heard then that it would be 3 spiendid thing to relieve the city of its incubus of corruption.

"But now, how different. The mo-ment we commenced to uncover rich criminals and to demonstrate that our motto would be 'No man is above the law,' the attitude of many of the bankers, merchants and predatorial rich changed.

ALTRUISM IS THEME OF SECRETARY TAFT

Benefactions of Nation to Cuba, Porto Rico and Philippines are Without Parallel in History of World Toward Weaker Peoples.

[BY THE ASSOCIATED PRESS-A.M.]

"Down to the last day of Spanish rule, there was not in this island containing a million people, a single building constructed for or dedicated to public instruction, and the enrollment of pupils was but 21,000. There are today in this island, ninety-seven such buildings, and the enrollment of pupils has reached the number of 130,000.

"The fortune or misfortune of the Cuban War carried us ot the Philippines. The exigencies of the situation brought us into such selations with Aguinaldo and the Fliipine troops in insurrection against Spain, that when peace came we could not turn the islands back to Spain. Accordingly, we undertook first, the establishment of order in the islands, and then the maintenance of civil government. In establishing order we expended \$170,000.000. In July next an election will take place by which an assembly of seventy Representatives elected by the qualified volunteers of the Christian provinces, will constitute a national Assembly, which will be one of the two houses, the other being the Philippine Commission. Us constitute the Legislature of

ances of National Altruism."

The assembly constituted the final sation, which had invited Secretary aff to address the body. President . W. Burke of Springfield, O., presided and introduced former Gov. E. Stannard, a milier of St. Louis, who a turn made a brief speech introducing Secretary Taft. He spoke as follows:

MADE PHILIPPINES ORDERLY.

"Having established order by use of the military, a Philippine constabulary was created, consisting of some 5000 men who police the islands. The American reached tary force known as the Philippine military force known as the Philippine sociuts, 4000 in number, that are really enlisted men of the United States army. "As soon as the Americans reached

TIVES REASONS,

in turn made a brief speech introducing Secretary Taft. He spoke as follows:

Today is Memorial Day, and therefore, instead of discussing a subject
in which you are interested as infliers,
i prefer to talk to ago as citisens and
patriots and have ventured to take as
the subject of my remarks recent instances of our 'national altrulan'.

To ask your attention at the last
into years, with the hope of showing
that there never has been on the part
of any comitty, a greater exhibition
of pure altruism than that exhibited
by the United States from the beginning of the Spanish War down to the
present day, toward the peoples who
were immediately affected. A study
of the conduct of our nation with respect to Cuba, Porto Rico and the
Philippines, covering now nearly a decada, ought to fill every American with
pride.

That which the American people beleved to be the oppression of the Cuban people the magnetic people beleved to be the oppression of the Cuban people the united States to

PITH OF NEWS FROM

ters of a length late this evening, in a thrilling two-mile race on Lake Cayuga. The official time was: Cornell, 11:01; Harvard, 11:03 1-2.

Three of the Harvard oarsmen—Faulkner, Severance and Bacon—were exhausted at the finish. The race was rowed in partial darkness.

Harvard took the lead at the pistot shot and rowed a rapid stroke, starting at 35, and maintaining 35 strokes for a considerable stretch. The crimson led for a mile and a half, part of the time by nearly a length. Then Cornell got on even terms and for an eighth of a mile the two crews struggled gamely, but the lithacans gradually pushed their shell in front.

The last half mile was a series of desperate spurts, in which Cornell's superior powers of endurance won.

A brisk northwest wind blew across Cayuga Lake course. The weather was cold and the skies cloudy. The course is along the east shore of, the lake and is paralleled by the Aubum branch of the Lehigh Valley road, of which an observation train of thirty-five cars was run.

WILL DRAIN LAKE TULARE

Colonists Anxious to Back Irrigation Project.

Scheme Is Costly But Seems to Promise Well.

West Side Fresno Farmers Possible Gainers.

present wire to the times.)

presno. May 30.—[Exclusive Disarth.] A gigantic project is proposed in pump water from Tulare Lake and safer the whole outside arid district. This scheme, if carried through, will relaim a large area of the lake bed see submerged, and would transform the desert on the west side from a satie range into a fertile tract.

A number of capitalists are interesting in this project.

A. C. Palladin of the Italian-Swiss clony represents a large part of the apital that is anxious to back the spiect, and is endeavoring to secure the cooperation of the land openers. Is soon as this is accomplished surging parties will begin active work at this reclaration scheme.

The plan is very costly, but it is BY DIRECT WIRE TO THE TIMES!

re in Homestake Shaft le Finally Subdued and Stamp Mills Begin Rock Crushing. (BY DIRECT WIRE TO THE TIMES.)

LEAD (S. D.) May 30.—[Exclusive Dispatch.] This morning the stamps in the mills of the Homestake Mining Company at Central City, Terriville and a part of the mills at Lead, began dropping. The plants at Capville and dropping. The plants at Gayville and East Lead and the slime plant at Dead-

wood were started up for a continuous run.

Since March 25 fire has been raging at some points between the 500-foot levels of the mine, and to put it out it was necessary to flood the works 1500 feet deep to a point within a few hundred feet of the 200-foot level. This has been done, and 600 stamps have resumed the work of crushing ore. During the enforced shut-down, something like 2500 men have been idle. The resumption means the distribution of \$300,000 a month in wages.

This afternoon the work of getting the water out of the mine was begun?

mping stations at intervals will
for the water through the west

The street rallway power house is flooded and power is obtained from a lighting company, but only one carcan be operated on each line. Two hundred homes are under water. These houses are occupied mostly by poor people. The loss in Houston will be over \$100,000.

Reports from along the Colorado Rilver are that a heavy rise is coming down that stream, which will do a great deal of damage to the crops in the Colorado Valley. Further west, the San Marcos and Guadaloupe are rising steadily and will leave their banks at lowland point. Other South Texas points report that county bridges have been washed out.

WENT AUTO RIDING AT TIME SET FOR WEDDING.

Guests Were Assembled and Bridal Supper Was Spread When Message Announces Bridegroom Is Too Sick to Appear—Rushes Off

(BY DIRECT WIRE TO THE TIMES.) BROWNSVILLE (Tex.) May 20.— [Exclusive Dispatch.] First Lieut. Mack Richardson, Twenty-sixth United States Infantry, recently stationed at Fort Sam Houston, who left with his regiment for the Philippines today, regiment for the Philippines today, most heartlessly broke his promise to marry Miss Anna Keeley, it develops. Miss Keeley is the daughter of Capt. William Keeley, president of the First National Bank of Brownsville. Her engagement to Richardson was announced several months ago and the wedding was set for Tuesday evening. May 11, the anniversary of her parents' marriage.

marriage.

The guests, including several of Lieut. Richardson's fellow officers, were assembled in Capt. Keeley's residence, the bridal supper was spread and the wedding presents were exhibited, when Miss Keeley received the following telegram from her recreant flancé: "Am too sick to come." Her pride hid her intense sorrow and disappointment. sorrow and disappointment.

Capt. Keeley announced to the guests that the wedding was postponed because of Richardson's sudden illness and with forced gayety, invited them to sup with him to celebrate the anniversary of his own marriage.

Later Mr. Keeley made an investigation and found that at the time Richardson announced that he was sick he was automobiling in Saa Antonio.

ROADS FIGHT STATE LAWS.

Begin Campaign to Prevent Freight Reductions.

Minnesota Statute Is Made Object of Assault.

Railway Directors Sanction Proposed Battle.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, May 30.—[Exclusive Dispatch.] Stockholding interests dentified with the Great Western Rail road system, in which their fortunes road system, in which their fortunes are invested, are on the eve of beginning a battle to prevent Western States from enforcing laws arbitrarily reducing freight rates on staples and commodities, which would cut down the income of corporations by many millions of dollars. It is maintained by heavy investors in railroad securities that if these laws are enforced it will be impossible for the companies to be impossible for the companies to continue paying existing stock divi-

It is understood that the campaign will be opened in St. Paul tomorrow, when groups of stockholders in nine or ten big rallway systems will apply to the United States Circuit Court in that city for injunctions restraining the companies from complying with the law recently passed by the Min-nesota Legislature, which becomes ef-

ngat against the nostile legislation di-rected agaist corporations which has been sweeping over the West. This plan of campaign has been ratified by the country's powerful railroad inter-ests at directors' meetings held in this city during the last few weeks.

GATES GETTING BUSY. Companies He Controls Slash the Price of Refined and Crude Oil In Texas Market.

DIRECT WIRE TO THE TIMES.) GALVESTON, May 30 .- [Exclusive for crude oil and 3 to 5 cents a gallon for refined oil. This action is inter-preted as meaning that the John W. Gates interests are leading a fight against the Standard. Strange to say, the companies known to be Stand-ard interests would not most the art ard interests would not meet the cut in prices. Orders were placed with in-dependent companies for crude oil ag-gregating 3,000,000 barrels for long-time

delivery.

The Standard has for years controlled the refined oil market in the Southwest. But the most remarkable feature is that refined oils are included and naphtha, gasoline and other high grades were offered at 11 cents per gallon in barrel lots, while the Standard companies would not contract for less than 15 cents per gallon. Contracts for many thousands of barrels of refined oils were closed.

"In fact, these influences extend far beyond the confines of the State. The great banks of New York that are subject to the influence of Mr. Calhoun and his associate stockholders and bondholders in the United Railroads have becaught pressure to hear upon have brought pressure to bear upon their bank correspondents in San their bank correspondents in San Francisco and Los Angeles to stop this graft prosecution against the rich men. It is destroying, they say, the little remaining credit which our stricken city possesses. Appeals are made to the selfish side of every mer-chant and property owner in the city and throughout the State.

"The representatives of nearly all banks in the city met in conference with Patrick Calhoun a short-time ago and pledged him their support. In form they limited their promises of asistance to his fight against union la-bor and expressly refrained from any expression of their intention to assist him to go 'unwhipt of justice' for the crimes for which he had been indicted. Privately however, some of these banks immediately proceeded to hint to their patrons that the indictment of Mr. Calhoun would be detrimental to the financial interests of the city because lit would encourage the striking carmen and cause the great finan-cial institutions of Wall-street to lose confidence in the ability of San Francisco to protect life and property and pay her debts.

ATTRIBUTES EVIL MOTIVES. "I know that they told certain customers that it was absolutely essential to the financial welfare of the city at least to postpone criminal action against Mr. Calhoun. Members of the grand jury were talked to by bankers and merchants along these bankers and merchants along these lines. Some of the bankers have re-

present carmen's strike compromised on any terms that would recognize the right of any man to belong to a union. Some of them call Calhous the savior of the city, and one 'high'y respecta-ble merchant' declared yesterday that

Physicians Tell of Eight Complete Cures-Treatment and Adjunct of Fresh Air Idea.

RECT WIRE TO THE TIMES.] CHICAGO, May 30 .- [Exclusive Dis patch.] Chicago has overtaken and probably surpassed the world's great sci.ntfic centers in the research into the soon-to-be-famous "Opsonin treat-

sci.ntific centers in the research into the soon-to-be-famous "Opsonin treatment" for the cure of tuberculosis.

This is due to the Memorial Institute, for Infectious Diseases, popularly known as the McCornick Institute. The institute has achieved such interesting cures of tubercular cases-opening up a more definite treatment of that dreaded disease than is contained in the current "fresh air and tained in the current "fresh air and plenty of food" formula—that the American Medical Association has extended to the institute an urgent invitation to tell the medical world all about it at

been accepted.

This "Opsonin treatment" has effected about eight permanent cures in Chicago, out of some forty cases in which it has been experimentally applied. None of the physicians at the institute consent to speak of it as a cure in itself.

self.
"It is just a valuable adjunct to the present 'fresh air' treatment." is their conservative statement, but the prosy records of their "Journal of Infectious Diseases" seem to show that by this method civilized society may hope ultimately to stamp out tuberculosis.

tion so that the public may know that there is nothing pending and no reason for any fear of war between the two countries.

"The assassination of former President Barillas by Guatemalans developed in Mexico a feeling of indignation and strong protest by public opinion against such a criminal action; more so, when it was known that Gen. Lima, from Guatemala, was supposed to be implicated.

"Mexico asked for the extradition of Gen. Lima, not as compulsory under the treaty, but offering Guatemala a privilege that might have been accepted, as there is no prohibition in the treaty for such action. Guatemala declined and this was the end of the conflict.

"There remains in Mexico a feeling of relevance and condensation of the conflict.

"There remains in Mexico a feeling of grievance and condemnation in the public sentiment, but not a spirit of

war.

"The troops that have been located in the frontiers of Mexico and Guateing order and to give protection people of all nationalities."

SULPHUR

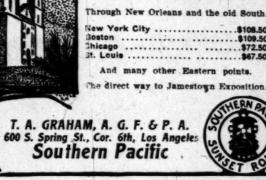

remedial agent. Who doesn't remember the old-fashioned sulphur and molasses gives in the spring to purify the blood. And it was a valuable remedy, too. But the form of sulphur makes it hard to get even a small quantity of sulphur into the blood. The greater part of the flowers of sulphur taken into the stomach is undigested and passes out without doing any good whatever. The very little that it assimilated does great good considering its quantity. For this reason physicians and scientists have for years tried to find some way of holding sulphur in liquid solution so that all of it could be assimilated and taken into the blood or when applied externally to sores, etc. be absorbed into the skin. Littli's Liquid Bulphur accomplishes this with absolute perfection. It is assimilated perfectly and every particle of it gets into the blood with not one of the wonderful sulphur curative and medicinal properties changed or lessened. Applied externally it is rapidly and readily absorbed and actually brings the sulphur into contact with the germs of supperation, mortification, decay or disease which it rapidly destroys. Lattell's Liquid Sulphur stops litching instantly and permanently relieves all forms of skin complaint, exema. erysipelas, pimples, running sores, tetter, ringworm, chaps, roughness, redness, or skin blotches. Sample bottle sent pestpaid to any address for 10c. Rhuma-Sulphur Co., St. Louis, Mo.

Willis Too Strong for Angels in First Game.

Batting of Dillon and "Gavy" Wins the Second.

Portland and Oakland Divide Double Header.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, May 28. [Exclusive Dispatch.] San Francisco divided are Dispatch. San Francisco divided a couple of tight games with the Angels today. Willis, who has been playing in hard luck in a number of his games, pitched a four-hit game in the norming and held the visitors down to a 3 to 1 score.

In the afternoon, Eddie Quick more than held his own as against Burns, until the less three linings, when he lized prescribly and gave Los Angeles.

thred perceptibly and gave Los Angeles the three runs they needed to put Long's bunch on the shedy side of a

2 to 2 proposition.

In spite of the transportation situa-tion there was a big crowd at Recrea-tion Park in the afternoon. In six tion Park in the alternoon. In six limings Quick allowed but three sin-gles and there was little chance for mischief. Up to that time San Fran-cisco had the lead by a scant one run. the seventh Cravath opened with obase hit, was sacrificed to third decred on a secretch hit by Bobby ger, who had been given the office the squeeze play.

timely hits that Nick Williams is get-ting every now and then.

The eighth saw the score again tied.
With two men faded away, Dillon hit to the fence. The hall shot back toward the diamond and the Los Angeles cap-tain took two bases. Cravath followed with a three-base hit to the clubhouse steps and the score was tied. Eager opened the hinth by reaching first on Meriarity's error. Burns attempted a sacrifice and Quick, who elected to put the ball to second, was a trifle slow with his movement. With two out, a long fly to center by Brashear gave Eager a chance to score.

PORTLAND'S HARD LUCK. SHOELD HAVE WON TWO. BY DIRECT WIRE TO THE TIMES. ND May 20.—(Exclusive in two of the best games PORTLAND

that have been played on the local

grounds this year, Oakiand and Port-land broke even in the Memorial Day matine. The first game, with a 7 to 5 score in favor of the Beavers, was more exciting from a standpoint of hits, but for Class A ball, the second contest was almost a perfect exhibition, ending in a victory for the visitors by one lone run. The opening game was a see-saw affair, first the Commuters and then the locals leading. It would unfoubtedly have taken more than nine innings to actile it had not Eagan dropped an easy pop fly in the eighth. Second and third bases were full at the time, and two runs went in on the shortstop's error. In the fourth Casey saved the day for Portland by a sensational catch of a hard drive. With the three sacks occupied, Casey reached out and pulled down a sizzler that would have cost two runs, retiring the side.

After playing-glit-edge ball for eight

Two Premier English Events Decided Yesterday.

Roads So Slippery Only Four Cars Finish.

Gasoline Limitation Proves Very Severe.

INT DIRECT WIRE TO THE TIMES! INT DIRECT WIRE TO THE TIMES, LONDON. May 30.—[Exclusive Dispatch.] The most important events of the automobile week in the Isle of Man were decided today, when the third annual contest for the international lourist trophy and the first contest for the international heavy-carrophy were decided.

A drizzling rain made the roads slip-sery and was responsible for many

isst for the international heavy-car trophy were decided.
A driziling rain made the roads slippery, and was responsible for many sishaps to valuable cars and also prevented a high rate of speed. The two siming cars were made by firms shich years ago were frequently in opposition on the cycle track, namely, the Zover and the Heeston, Humber. E. Courtis won the tourist trophy in a 3-horse power Rover, and G. P. Mills took first place in the heavy-car race in a 30-horse power Beeston Humber. The authorities were so impressed sith the had state of the roads that the heavy cars were allowed an extra gallen of petroleum.

The course was from Quarter Bridge, Douglas, to Peel, via Union Mills, Cresby and Ballacraine; from Peel via Coat road through St. Germains to Ramsey, and then back to Douglas, over a mountain road to Snaefell. To complete the race, the light cars indicated in the heavy cars were required to go around five times, a distance of 201 miles, 3 'urlongs. They had to complete the distance on an allowance of gasoline found five times, a distance of 201 miles, 3 'urlongs. They were allowed a little over thirteen and a half gallons of gasoline for the entire distance.

There were twenty-two light cars in competition and nine heavy ones. Both mose were most interesting from start of finish-the positions changing repeatedly. When the light cars left on the last circuit, six of them had a winning chance. Three miles from home A Lee Guiness looked like proving successful in an 18-horse-power Darracq, but, running out of gasoline, he had victory snatched from him. Four of the cars finished on their gasoline allowance, two in each class. These were receiver (E. Courtis, 8 hours 25 minutes 17 seconds, first; and a 16-20-horse-power Beeston Humber (James Reid,) i hours 35 minutes 17 1-5 seconds, second.

In the heavy cars a 30-horse-power Beeston Humber (G. P. Mills.) 7 hours

end.

In the heavy cars a 30-horse-power Beeston Humber (G. P. Mills.) 7 hours II minutes 1 second, was first, and a 3-horse-power Gladiator (Graeme Fenton.) 5 hours 31 minutes 35 1-5 seconds, second. The average speed of the winder of the longer race was about \$3 1-4 niles an hour, as against nearly forty tiles an hour by the Hon. C. S. Rolls let year.

LETE DAY FOR WHITE FLIERS.

OUTH COAST YACHTSMEN ON

eal Weather Conditions and Excellent Programme Combine to Make Outing Biggest Success in Club's History—A Score of Sloops, Launches and Schooners Made Trip.

San Pedro harbor never looked mor tractive than yesterday morning then it was dotted with the white sails at more than a score of the graceful nehrs of the South Coast Yacht Club. Hom ex-Commodore Sinclair's big shooner Lurilne down to the midget shooner Lurilne down to the midget at the commodore that was in holiday at the commodore to Portuguese and the club members and their last were entertaining fully a hundred guests. Altogether nearly two under persons made the trip and all treet that if was the most successful as most enjoyable outing the club has were held.

wer held.

The start was made soon after 10 fisca from the landing in front of clubhouse, some of the boats getaway well in advance of others waited for belated passengers town. It was a square beat to ward with a light, steady wind. It is a light, steady wind as a ladies' breeze, just what the racing sloops, with their great and of canvas, needed to show at best. Monsoon, Yankee, Skidoo see of two other fast sloops made ha is less than two hours, but mater part of the fleet was considered.

ma in less than two hours, but mater part of the fleet was considered was the boats, every one haveled was the boats, except the boats, except the boats, but the boats of the boats, but the bo

victor Stewart aboard, was the body helped himself and nomut hungry at the Bend, where with hungry at the Bend, where with hungry at the Bend, where was and many other good things wains to satisfy the appetites hungry, sunburned and happy which was landed from the G. Harrison, the Committee amment, had left nothing uniform the beautiful that the beautiful the beautiful that the programme. The sundant was the club's guests thought and the solops with their sundant and the sloops with their has so many great white-winged of them making the run may than an hour.

Buy Friday and Save

These Opportunity Day Sales are ripe with money-saving chances. Economy is the keynote. Unworthy merchandise is not cheap at any price, but the House of Bullock is building a reputation on worthy merchandise—goods that are reliable in every respect, and when you couple the low prices of Opportunity Day with the high standard of Bullock merchandise you have a combination which means much to the shopper. Scan each item featured, and come Friday, remembering that though the published statements are strong and the prices very attractive, the best things do not get into print, as the greatest reductions are to be found on the shortest lines, and those are not advertised.

(Continued from Fourth Page.)

and unthinking movement to cut them down may be equivalent to provide better transportation.

There can be no question as to the desirability of doing away with rebates or any method of favoring one shipper at the expense of a competitor, and direct dealing with the rates is sometimes the only method by which this favoritism can be avoided; but where favoritism is not alleged, and when the question is nakedly one of exting a lower rate, it must be remembered that it is often possible that hose demanding it may be diametrically opposed in interest to those who demand a better, safer, and more rapid transportation rervice, and higher wages, for shorter hours for employes, and for lower rates becomes so excessive as to prevent ample and speedy transportation, and to eat up the legitimate profits; if popular and legislative movements take a shape so ill-directed as not only to threaten honest investments and honest enterprises but also a matter of morals. The success of our whole system of government depends upon our discriminating between men, not with reference whether they are rich or poor, whether they are rich or poor, whether they follow one occupation or any State Legislature let their ally opposed in interest to those who when they have to appear before the National or any State Legislature let their business be above-board and let thei

tions Committee Lifts His Voice on Historic Ground to Decry Tendency to Paternalism Through Laxity of Commonwealths.

[BY THE ASSOCIATED PRESS-A.M.] BY THE ASSOCIATED PRESS—AM.]
GETTYSBURG (Pa.) May 30.—The
usual Memorial Day exercises at the
Union Cemetery, where 4000 soldiers are
buried, was held this afternoon.
Congressman Tawney of Minnesota,
the orator of the day, said:
"The battle of Gettysburg, like those
of Marston Moor and Runnymede and
Bunker Hill, was fought to determine
the proper bounds of political and civil
liberty. It was not fought to settle a
purely personal issue. There is but

purely personal issue. There is but one great problem in politics today and that is the adjustment of the central power of the State or nation to the local self-government of the people. "Hus the individual State the right

The part of the pa

self-government by expressly reserving to the States all governmental pow-ers not expressly conferred by the Constitution upon the Federal gov-

to the States all governmental powers not expressly conferred by the
Constitution upon the Federal government."

It has been suggested that the
reason for this practical change
in our present system of government is to be sought in the irrperialistic aggressiveness of the party
at present in control of the national
government; but let us not deceive
ourselves with shallow reflections.
The real reason lies deeper than this.
The tendency on the part of the States
to surrender the exercise of powers
and privileges belonging to them and
the willingness of the Federal government to assume such exercise and
the burdens incident thereto is not
peculiar to any political party nor to
any section of our country. It exists
in all parties and in ever section of our
fair land.

"The true reason for this dangerous
tendency, or why the people are willing to let the national government
perform and pay for so many things
which properly fall within the obligations of the States and private citizens, lies in the fact that they do
not realize that they are themselves
paying for the things which the national government pays for The legleasing to the criticism and disapprobation of his constituents. Therefore,
needed legislation is postponed because of the expense it involves, and
the Federal government is appealed
to wherever possible.

"I do not plead for State's rights.
I plead for the right of the Federal
government to protect shelf and its
treasury against the encroachments of
the States and private interests upon
her powers, her duties and her revenues. Where will this tendency end,
to what result, think you, does it naturally and inevitably lead, whither are
we going in this centralization of
power and mutilation of local selfgovernment? I lay no claim to
prophetic powers, but I bring to you
the thought of many of the ablest
men in the public service today when I
say that we are unconsclously drifting toward a highly-organized, bureaucratic form of Federal government, such as has become the

are natural flavors, obtain a new process, which gramost delicate and gratefi Dr. Price's Favorings conscientiously commensuing just as representation in every possible One trial proves their lence.

The above picture illustrates a fact which we feel every thrifty American housewife ought to know—

A single package of our E. C. Corn Flakes contains 50% more toasted corn flakes than any other 10c package on the market.

This means that you can serve E. C. Corn Flakes with rich cream and fruit for less money than it costs to serve other brands plain and dry.

In other words, every time you do not insist upon our E. C. Corn Flakes at your grocer's you are practically throwing away 5c in real money.

Could anything more clearly illustrate to the thrifty American housewife the real economy of E. C. Corn Flakes?

But that is not all— E. C. Corn Flakes so far surpasses other brands in regard to quality that there is really no basis for comparison on that point—

For E. C. Corn Flakes is made in the largest, cleanest and most economically operated pure food mills in the world, by the famous Egg-O-See process, which has made Egg-O-See the favorite flaked food from Maine to California.

More Egg-O-See is eaten each day than all other flake foods combined.

Never in the history of a food product have the American people given such a sweeping endorsement of merit as has been accorded Egg-O-See.

That is why we call our flaked and toasted corn food Egg-O-See Company's Corn.

We realized that the millions of people who, for years, have known

the deliciousness of Egg-O-See would understand at once that E. C. Corn Flakes is as good a corn food as Egg-O-See is a wheat food and that, with these two in the home, they need no other cereal.

Remember the name, Egg-O-See Company's Corn, flaked and toasted, or E.C. CORN (as we call it for short), and that it is made the Egg-O-See way by the Egg-O-See Company in the largest, cleanest and most economically operated pure food mills in the world, thus making it possible for us to sell the largest package of the highest quality food for 10 cents.

Get a package at once and judge for yourself. Your grocer should have it. If not, insist on his getting it for you, or send us his name and 10 cents, and we will send you a package prepaid.

While Decorating Graves of His Children a Carpenter Loses His Reason and Becomes Violent.

While Sanborn Howard, a Carpenter every Monday night at Praternal Brotherhood ter residing at No. 4416 Stanford street, was decorating the graves of his was decorating the graves of his such as the stanford street.

While Sanborn Howard, a Carpenter residing at No. 4415 Stanford street, was decorating the graves of his two deceased children yesterday, he became mentally unbalanced and last night attempted to end his life. Domestic troubles are said to have caused Howard's mental condition. A few years ago his children Gled. Following that he began to have trouble with his wife. He says that she recently left him and he has been that ime. His lonely life caused despondency and temporary insanity quickly followed.

Neighbors say that when Howard returned from Evergreen Cemetery he seemed to act queerly. It was noticed that he was becoming violent, and he repeatedly threatened his life. The police were sent for and he was removed to the Receiving Hospital. Howard is now possessed of the idea that he decorates the graves of his children each day.

TO HANG LORD BARRINGTON. JEFFERSON CITY (Mo.) May 20.—
The supreme Court en banc late this afternoon declared that "Lord" Frederick T. Seymour Barrington, now in jail at Clayton, Mo., shall be hanged on July 24, for the murder of J. P. Cann. a St. Louis horseman.

XXVIT YEAR.

FRIDAY MORNING, MAY 31, 1907.

TENDER MEMORIES lackstone Co ROUND THEM CLING. DRY GOODS

music.

At Venice and at Baiboa Beach, signal honors were paid to the memory of those in the navy who gave up their lives for their country, and who went down to watery graves. Unique throngs

participated.

At all the services it was plain to see that the ranks of the veterans are sadly thinned. Some who responded to the roll call last year were not in their places veteralay.

places yesterday.

The line of march was purposely made short in Los Angeles for the benefit of those veterans who no longer can walk far without fatigue. It began at Central Park and led up Sixth street to Hope and then to Simpson Auditorium.

But even that short distance was al-most too much for some of the battle-scarred veterans. Many of the more able helped along their weaker com-rades and it was a pathetic sight to see

the Holiday.

HEARTS MADE HAPPY.

ANGELIC PILGRIMS' estice Austin Releases Many Prisoners from the City Jail Because of HOMEWARD FLIGHT.

'ROUND THEM CLING.

On Land and On Sea, by Word and by Deed, Loving Tributes Are Paid by Great Throngs to the Soldier and Sailor Dead.

Tens of thousands honored the memory of dead hecose yesterday. The memory of dead hecose yesterda

This is not the place for a description of the processes that so interested the Angelenos; but the ore from the moment of its first dissolution by the cyanide, is treated as a viscous fluid; it goes through tank after tank for washing and rewashing: the nearly clear water (containing all the values) passes through since shavings, which catch the precious metals with hooks of affinity, and the furnaces do the passes through since shavings, which catch the precious metals with hooks of affinity, and the furnaces do the rest. The resultant bricks, to the value of \$7000 to \$10,000 daily, are shipped to Selby to be refined (silver predominating over gold, two to one, in the product,) and thence to the mints. If anybody has the idea that water cannot be squeezed, let him visit this big mill and see the precious metal literally squeezed out of aqueous streams.

I speak of this tremendous enterprise. rested last night for stealing a glass jar containing gum from a store at No. 909 East Fifth s treet. The lad resides with his parents at No. 906 East Sixth street. He said he wanted gum and had no money. The boy was sent to the Detention Home from Central Station.

literally squeezed out of aqueous streams.

I speak of this tremendous enterprise at some length here, because it is one of the best concrete demonstrations of the latter-day productiveness of the desert. Here we saw the real gold and silver issue from the intestines of mountains that look as barren and bleak and profitess as anything man's doubting eye ever rested upon.

This monster mechanical organism, seemingly almost human in its touch and accomplishments, was a wonder in itself. It represented the heritage of ages of study, experimentation, science, patience, brains.

But the story it told, after all, was the story of creation.

God made the earth and He saw that it was good. The desert is not a waste; it is a prodigy of riches. Men are finding greater treasures there than figures can represent or speech can tell. They are finding more and more every year, every day. And the beginning of these discoveries has just been made. A one-hundred-stamp mill starts today; a sixty-stamp mill will begin business tomorrow; new ones will be in operation next week; and still the sleeping treasure waits.

There were few mining experts in this group of fifty-six representative business men. They all went down into the mines and explored miles of tunnels at levels varying from 500 to 1100 feet below the surface. At Goldfield they tramped amid the vaulted gloryholes of the world-famous Mohawk, which is said to have produced \$5.60.000 in 106 days. At Tonopah they walked for miles and miles among the tremendous diggings of the Belmont, which is now paying ten-cent quarterly dividends. Few of our party knew ore from waste; but they saw the operations conducted upon such a magnificent scale; they saw the cars loaded with rich quarts and tale; they say

the party from sact to make the graph colders in great concerns, brought home the following general conclusions shared by all:

That it paid to make the trip—paid immensely.

That the expedition was an eye-opener as to the resources of Southern Newada and as to the possible commercial expansion of Los Angeles, pah. Rhyolite and the other Southern Newada camps are anxious to do inore-usiness with Los Angeles and we'come the advantages promised by the strip of the strip

What may be done by Los Angelei (Continued on Second Page.)

N NET TAKE BIG OCTOPUS.

Twelve-Foot Monster Captured by Fishermen in Launch Off San Pedro.

[SPECIAL CORRESPONDENCE.] SAN PEDRO, May 30.-An octopus, or devil fish, which is said to be the largest ever capwaters, was taken this morning by Capt. Alf Swenson of the

launch Leone, while returning from a trip to the fishing banks. This sea monster measures twelve feet from tip to tip of its snake-like arms. It has a sharp, hard, bill-like mouth, resembling a parrot's. Its tentacles are twice as big as the arm

of an ordinary man. The giant devil fish was not captured without a hard fight. It was discovered dozing on top the Leone cleverly managed to to surround it with a strong net. After being awakened the monsier fought furiously and it required the combined strength of the three brawny fishermen to land it on the deck of the Long Beach this morning on the launch Music for exhibition

canes.

W. T. Gilkey marched with his comrades of Stanton Post, a very pretty
little girl leading him by the hand.

"My sight is a little dim," said the
veteran, "but my little one is glad to
march along with the boys and help. I
used to be able to sight my rifle pretty
well against an enemy but those days
are now gone."

And so the battle-scarred soldiers of
the Civil and Spanish Wars marched to
Simpson Auditorjum with the Veteran
Fife and Drum Corps of Los Angeles
playing bravely. It was an interesting sight to see those aged musiclans,
fired with zeal, piping out the
shrill notes of the fifes and sounding the purick rattle of the desired

embers of Hopkins Squadron No. 11, United States Veteran Navy, bearing miniature flower-bedecked representation of the Maine to be launched on the waves in memory of the sailors who perished in Havana Harbor. Above is a Naval Militia firing squad leaving Venice pier to join the ceremony of casting flowers on the sea. Below, a group of girls going to decorate in ome of the men who had given their who had gone to the front to perform

well against an enemy but those days are now gone."

In contrast to the veterans of the new almost-forgotten struggle between the Blue and the Gray, was the splendid showing made by the Sons of Veterans and the United Spanish War Veterans. Among the latter are names that are numbered among the heroes of the incomparable victories in the Spanish War.

There marched one who was with Admiral Dewey; beside him one of the heroes of San Juan Hill. Just beyond was a boylsh-looking fellow who had (Continued on Tenth Page.)

ill for country's sake, barely able to their plain duty and then return bobble along, even with the aid of home to take up once more their oc

Raymond avenue on the east 1 side of the car barns. . It is supposed that the air leaked from the chambers, so that the brakes turn. The practice of the company in leaving cars on the street there over night, instead of in the car barn, which is overcrowded, has caused considerable comment. Eighteen cars were recently counted standing on the street. This accident is accepted as accentuating the danger in which the

Ladies' Tailoring, Third Flo

(Continued from First Page.)

Schneider, John R. Mathews, George, J. Bittinger, W. H. Joyce, J. O. Koepfil, W. J. Washburn, and Harry Callender, other members of the committee, on board the train. The weather clerk was most amiable. Not a single uncomfortable day did we have. Late afternoons and evenings an overcoat was comfortable at Goldfield.

One of the felicitous hits was the securing of Frank G. Tyrrell as the spokesman of the company. Gold and silver and preclous stones drop from Mr. Tyrrell's lips like dewdrops from the more of Tyrrell, who always said just the right thing.

One of the most amusing episodes of the journey was a mock trial in the drawing-room car Wednerday night. John M. Sands, whose deliciously humorous promotion of the "Glass Bottom." "Red Top" and "Black Diamond" mines had caught the crowd, was arraigned on the charge of violating the Cartwright law. G. S. Wright presided as judge; F. D. Halm was "Prosecutor Heeney:" Douglas White was attorney for the defense, and Carl Leonardt was arrested as a fellow-conspirator. At an early hour in the morning he was dragged out of bed and brought in as a witness in his pajamas, and on his testimony everybody was convicted, including the court. Sheriff Lichtenberger and Ellisor Callender. Thirty boxes of choice navel oranges were distributed by the excursionists as they went along and these were most welcome. Several boxes were sert to the Goldfield schools.

The excursionists returned to the old home pleased with everything and

boxes were sent to the Goldfield schools.

The excursionists returned to the old home pleased with everything and everybody, and adopted resolutions to that effect. They could not have been treated more affectionately or cordially in Southern Nevada if every member of the party had been that old hero so highly revered and so oft lauded in the Tonopah-Goldfield district—Jim Buther's mule.

The writer of these lines hopes to have the pleasure, on another day of describing more particularly some of the achievements of the Nevada wonder-workers. There are many more things to be written about Rhyolite, Beatty, Goldfield, Tonopah, Manhattan and their men and deeds.

Already there is talk of another business men's excursion—next time to Arisona.

RESOLUTIONS.

BY EXCURSIONISTS.

On the return journey of the business men the following resolutions were adopted:
Waereas, the Sait Lake Railway Company has pravided a soils testibuted train; a supervise of the Los Angeles Business Men's Excursion through the Newards gold fields, manned by a train seaw attentive, a left, and thoughtful of every Vote and Work for Owens River Bond Issue

Business Men's Excursion through the mining districts of our neighboring State, and Whereas, the representatives of the press who accompanied us have exerted themselves assiduously in our behalf, and have it in their power and in their hearts to render still further assistance; now, therefore.

Resolved, That we utter our sincere thanks for the generous courtesy of the press and its able representatives.

(2.) That we recognize its disinterested and discriminating support of the things vital to the welfare of our growing commercial communities.

(3.) That, while according the press this mead of praise for good work well done, we mead the profit him much.

Clearance Sales Today and Saturday

WO DAYS MORE of the extraordinary buying opportunities with which this sale was started. Today and Saturday will witness the final clean-up of all goods marked for this week's clearance. Naturally, many lots and lines are somewhat broken and these, while not advertised, offer most remarkable values. In other lines that have not moved as quickly as the occasion demands, prices are again reduced, adding further interest and importance to what was already this season's most attractive bargain event. Many new features and exceptional bargains are provided for the week's end. Today and Saturday will undoubtedly be the greatest days of a great sale.

Ut course the increased business at to the second conditions that create this hesitancy it is all summed up in "public opinion."

turing people. Our manufacturing enare mostly of so moderate an equipment and scope that the output is all is particularly true in Los Angeles. and with such an industrial population very generally a widespread agricul-tural interest, there is no reason why these strained money conditions at rupted, and there will be a continual demand there for the products of our factories and mills, as well as of our

CEATTLE'S LESSON.

Seattle is a city with very considerable manufacturing industries. Naturally, the manufacturers of that city have had their troubles with labor unions, as elsewhere. But the Seattle business men seem to be of a very different type from those in San Francisco, who allow the unions to have their way in defiance of law, in rioting, committing assaults on in-dependent workmen, breaking their bones, and taking their lives.

The navy is short on doctors, while the country is long on them.

Happily, the Old Guard is still good for many another Memorial Day.

Theodore Roosevelt draws his strength from the hearts of his countrymen.

Every religious denomination in town avors the Owens River, including the Saptists, of course.

Two of the great enterprises in Seattle, the Moran Company, ship-builders, and the Variety Iron Works, have been engaged in difficulties with their striking workmen. These industrial corporations found the demandation of the union-labor employées so unreasonable and excessive that they had to be denied. The denial of their demands resulted in a strike, and the variety Iron Works, have been engaged in difficulties with their striking workmen. These industrial corporations found the demandation of the union-labor employées so unreasonable and excessive that they had to be denied. The denial of their demands resulted in a strike, and the variety Iron Works, have been engaged in difficulties with their striking workmen. These industrial corporations found the demandation of the union-labor employées so unreasonable and excessive that they had to be denied. The denial of their demands resulted in a strike, and the variety Iron Works, have been engaged in difficulties with their striking workmen. These industrial corporations found the demandation of the union-labor employées so unreasonable and excessive that they had to be denied. The denial of their demands resulted in a strike, and the variety Iron Works, have been engaged in difficulties with their striking workmen. These industrial corporations found the demandation of the union-labor employées so unreasonable and excessive that they had to be denied. The denial of their demands of the union-labor employées and the variety Iron Works, have been engaged in difficulties with their striking workmen. Life must have gone very well with the man who doesn't wish he could have another try at it.

Gen. Kuroki must have been impressed with the large army this country has when it needs it.

The spring weather in the East has been doing all that could be expected of it to boost California.

The guerrilla warfare carried on in San Prancisco certainly makes the lown look like a monkey.

We are almost afraid to ask, and yet we can't help wondering if the fleas have deserted us for good?

Abe Hummel rode to lall in an auto-

Coultet Dry Goods to

Indian Head suiting for outing costumes — shirtwaist suits, skirts, etc., the full shrunk, bleached, soft finish material, here 12 1-2c a yard; good as gold at 15c. 36 inches wide.

Sunbonnets for women and children are here in plenty now-50c to \$1.50 each. White and colors for women. white only for children—a dozen pretty styles to choose from.

Money Savers

From the Rug and Carpet Section Fifteen pieces of American fiber mattings, shown in beautiful patterns and colorings; durable as granite, and exceedingly pretty, while they last, sewed, laid and lined, 50c yd. Regular price 75c.

American fiber Art Squares, ready to lay on your floor: 6x9 feet; regular \$6.50, now......\$5.85

Good quality of rag carpet, such as your grandmother used to use; sewed, laid and lined for,

Fifty pieces of good quality linoleum; worth 65c to 75c, on special sale for one week, laid, at 60c yd

Short Silk Coats \$17.50

Values to \$38.50

Lucky for you if you've been putting off. from day to day, the buying of that short silk coat that you want for a light summer wrap, because we're selling beauties at very much reduced prices just now.

Short black taffeta Eton coats, pony jackets and loose models, (no long coats) that ought to fetch \$20, \$25, and even \$38.50, are marked at one price—\$17.50.

Many of them are handsomely braided, oth-

ers have dainty trimmings on collar and cuffs of white lace; hardly any two are alike, and all are

Each coat is lined with fine silk—plain white, plain black, or black and white hairline striped.

American - Made Prints 5c

That's Less Than Wholesale Cost.

Very few people who aren't aware of the sharp and steady advance in cotton goods of late. So this offer of best American-made prints at less than wholesale price will be doubly welcome to wanters of stuffs for children's dresses, aprons, shirts, etc.

Navy, black, gray, cardinal and white prints, with figures, dots, stripes, etc., in white or colors over their surface; staple the country over at 7c, and costing at wholesale today 6c, we shall sell on Friday only at 5c a yard. Buy all you want; we don't limit the quantity

Ruchings \$3 a Dozen Yards

Hardly a day passes but some customer of ours buys a 12-yard box of ruching, it's not only cheaper, but saves the annoyance of having to make a special errand to purchase so little a thing, if you have an amole supply in the house. So, today, we're going to sell those ruchings that retail for 35c, 40c and 50c a yard, at \$3 a piece of twelve yards (not cut). An idea of the styles and colors involved may be gained from inspecting an entrance window devoted to their display.

ANDERSONE CHANSLOP

Delicious Coffee

It's not because we have been selling this A. & C. Mocha and Java Blend Coffee for years, that we recommend it-it's because we knows it to be the very best coffee obtainable at anywhere near the price. We take the utmost pains in selecting the berry; in exactly proportioning the different kinds; in perfectly roasting; and in theroughly mixing and grinding. This makes our Mocha and Java Blend the best coffee obtainable. Try it just once-your verdict will mean its continued use. Price 40c a pound.

Baldwin Refrigerators for

Government Hospitals ... Twenty-Second Year ...

The Baldwin Refrigerator Company has been notified that its proposal to furnish the U. S. public health and marine hospital service with refrigerators for the current fiscal year has been accepted, making the twenty-second consecutive year that this important branch of the government service has adopted the Baldwin dry air refrigerator for use in all its hospitals and quarantine stations. So highly were those refrigerators regarded by the surgeons and stewards as far hack as 1884-1885, that one of them was included in the government exhibit at world's exposition, New Orleans, marked "Standard refrigerator for hospital use."—Burlington Free Press, August 18, 1906.

Cafe Liquor Joints Under Investigation.

Evidence Taken for Council, Action Expected.

Enforcing Ordinance Would Cost Licenses.

censes have been investigated quietly during the last ten days by persons rathering evidence to submit to the Council. There is a movement on foot to transfer the regulation of these

time to take part in the Christian Endeavor Convention at Long Beach in July. That is the only engagement he will keep this summer. He has received invitations to deliver the baccalaureate at the University of Washington and the California College of Cakland, and the commencement addresses at sixteen high schools in Southern California, but on account of everwork he has been obliged to decline all invitations. He has given up his engagement at the Christian Endeavor Convention at Scattle in order to be present at the sessions of the National Teachers' Convention in this city.

00000000000000 MYOMEN'S CLUBS.

council. If there is a movement on foot to transfer the regulation of these cafes from the police board to the Council direct.

Secrety has been maintained that the liquor interests might not be advised before the investigation is concluded; now some one has "leaked" and vestereday most of the cafes were on their guard.

Failure of the police board to enforce the rule requiring that drinks shall be served to women only as a part of a complete neal is the cause assigned for the investigation. This rule is made to include every day in the week but there is said to be not the slightest effort to enforce it except on Sanday—and then not strong enough to be noticeable.

There is no provision in the city charter for the sale of liquor in Los Angeles; the traffic is governed wholly by ordinances passed by the Council and by rules of the police board. For years the Council has been too timid to attempt any Jiquor legislation; the one exception to this is the ordinance atipulates that drinks shall not be served them in cafes except with a hot meal. There are probably twenty cafes in the city that serve drinks to women without meals six days in a week; the proprietors say they are serving these drinks under the saloon license; the cafes hold both retail and restaurant liquor permits.

Several weeks ago the attention of certain Councilmen was directed to the fact that belling drinks to these women is a flagrant infringement of the license require that a, hot meal shall be served.

The license require that a, hot meal shall be served.

CEVENTY MILES HOUR CHASE.

Police Get Him After Mad Dash After Him Through Streets in Six-Cylinder Automobile, and He Calmly Says His Machine Is Not in

Good Order.

Mounted on a four-cylinder motor-cycle and going at a rate of seventy miles an hour through the streets of the downtown district late Thursday night, A. J. Burroughs, manager of a local paint house, was run down and captured at Sixteenth street and Cen-tral avenue by Patrolmen Humphreys and Green.

and Green.

To make the arrest the officers were compelled to desert their fast motor-cycles during the chase and press into service a large six-cylinder automobile that happened to be headed in the same direction.

the happened to be headed in the same direction.

The capture of Burroughs proved the most exciting of any arrest made by the officers since the squad was organized, more than a year ago, and interesting testimony is expected when the officers appear in court today. When the motorcycles were bought by the police department several months ago, they were thoroughly inspected and found to be capable of about fifty miles an hour. That speed was deemed sufficient in capturing any vehicle in the city streets where racing would be practically impossible. Up until Thursday night the machines proved amply capable of handling the mechines proved amply capable of handling the mechines but when Burroughs whizzed by the officers they were outdistanced before they had gone a block. At Fourth street, and central evenue they had to slow down to avoid collision with a car, and the officers, seeing that there was no chance of capture with their machines, halled a passing automobile and jumping in continued the chase.

when whom nothing has been heard were twenty years.

When Mr. Collins undertook a trip too Glasgow with his vife to find his smalfather, or at least his family, there was no expectation that he might keep the many any. But if it is a fact that the elderly carried of the cash in the might keep the many and the collins, who is now in Los imples, the chances are that he will make in for an exceedingly large slice of the cash collins, who is now in Los imples, the chances are that he will men in for an exceedingly large slice of the cash collins, who is now in Los imples, the chances are that he will men in for an exceedingly large slice of the cash collins, who is now in Los imples, the chances are that he will men in for an exceedingly large slice of the cash with John Collins is a typical Glasgow. The round table, at which the guests were seated was decorated in the class color, violet. In the center a bowl of violet sweet peas was placed, from which delicate strands of asparagus trailed over the table. Violet tulle also contributed to the beauty of the effect. The place cards were ormanented with sketches of voilet sweet peas. Violet bonbons and tapers of the same hue were other accessories. In the reception-rooms, marguerites and roses were utilized, while in the library scarlet poppies glowed. Among those who enjoyed the affair were Misses Cordelia Stimson of Pasadena, Bingham of London, England; Alice Elliott, Eulalia Rollins, Frances Andrews, Jennie Wishon, Marian Phinney, Mabel Williams, Heles Wyckoff, Ethel Shaver, Jeanette Kendall, Jean Stetson, Eloise Watson, Barbara Sawteile, Grace Denben, Mabel Smith and Olive Berryman.

For Miss Yerxa.

Mrs. Stewart Roseberry was hostess on Thursday afternoor, at a china shower, given for her sister, Miss Myrtle Yerxa, who is soon to become the helds of Hugh Duff. Mrs. Roseberry opened her handsome new home, at No. 1971 South Hoover street, and had as guests the members of the Sigma Tau sorority and a few other friends. The afternoon was spent in playing a musical contest game, the first prize, a framed picture of Cupid, being awarded to Mrs. J. R. Prince. Later a luncheon was served, at which the bride-elect received her gifts of china. The pieces were hidden in a pretty basket of yellow tied with red ribbons, and the luncheon table was decreated with American Beauty roses and red ribbons.

Today those interested in the Rescue Home for Animals, which is to be built with the funds from the fete Mrs. R. L. Horton is giving, are working strenguisty to consulate the working strenguist.

mrs. R. L. Horton is giving, are working strenuously to complete the booths and give the finishing touches to the fairyland which is to be.

Tomorrow afternoon and evening the garden fete at the Friday Morning Club grounds, corner Hoover and Adams streets, will be on in earnest, and those who have a soft spot in their hearts for animals will be given an hearts for animals will be given an

NOW NICKEL EATS PENNY

How Arcade Microbes Prey on Each Other.

Store Shows" Throttle the Picture Machines.

Malevolent Little Pests May Be Self-Destroying.

casionally the microbe's worst foe is another microbe-and the same con-

Against the vulgar little penny arcade, lawyers, preachers and philan-thropists have inveighed here in Los Angeles, and city ordinances have been passed; police have raided the fithy joints, but force and mandates have

been preity ineffective.

Now it seems that the arcade is about to be destroyed by one of its own kind—the nickel theater.

The wise impresarios of this small business have paired the penny ar-cades and the nickel theaters. They work them side by side. The unwise man with the arcade has

chosen to rival the formidable moving-

The unwise man with the arcade has chosen to rival the formidable moving-pictures machines of the five-cent syndicate—and faces ruin.

A canyass of the nickel theaters in Los Angeles hat night revealed a very large percentage of foreign patronage in the plain wooden chairs. The Mexican, especially, is an enthusiastic devotee. As far as education is concerned, the peon, of whatever age, is not on a par with the American newsboy, and to his simple mind the unfolding of the kinetoscope drama is a wonderful and thrilling event.

You can find the nicked theater, with its familiar price signs and faring advertisements, as far north as the Plaza, and as far south as Sixth and Broadway. There is one near the Baker block—adjoining an undertaking room—which has acores of Mexican patrons each day. And yet a cheap theater right in Sonoratowu has failed twice this year. Strange anomaly!

The nickel theater and the penny arcade furnish most of the distinctive features connected with the mechanical side of theater development. They came into being about the same time, and have grown, mushroom-like, into a noisy popularity.

The penny arcade began its festive career at the Pan-American Exposition, in Buffalo. The 5-cent theater was a western notion of about the same time, which biossomed into full glory in Pittsburgh, and then hurried in all directions with amazing speed.

The burning question now is, as to whether there's more money in a nickel than in a cent, at the price of admission and in the display of "attraction."

than in a cent, at the price of admission and in the display of "attrac

sion aid in the display of "attractions."

While the two were geiting under way in Los Angeles the arcade rather had the best of it as people probably observed. It had the merit of absolute novelty, and while it lasted its seeming cheapness gave it a strangle hold on the situation.

But when it did arrive, the 5-cent show dropped with a bump. Peons, bums, drunke and naughty little boys who had been dropping their pennies down a slot, to see all manner of horrid happenings, began to realize that there was a great deal more boy in depositing a whole nickel, and then sitting easily in a real chair for a half-hour or so, while a large, life-sized picture of the same melodrama danced before one's vision.

The basis of the 5-cent theafer show a given the moning-nicture exhibit.

ater is sometimes even a cheaper mat-ter than the penny arcade—in fact, as it is conducted in Los Angeles, on a sort of fly-by-night basis, it may be said to be pretty regularly so. In the parlance this is celled the "store show." The "store show" is supremely simple in its equipment. An ordinary small store, provided with a sheet for a curriain, a cheap moving-picture ma-chine, a few rented films, as many old chairs as the place will hold, a ticket-seller, a machine operator, perhaps a

Facts About the Clothing Business

And Incidentally About the Leading Clothing Store in Los Angeles

HE three primeval necessities of mankind are FOOD, RAIMENT AND SHELTER. Our business is that of raiment. For over a quarter of a century we have given our exclusive attention to this--one of the prime necessities of man. It stands to reason that we should be masters of our trade after all these years of experience.

This is an age of specialists. In every profession, men are specializing. The lawyer, the doctor, the engineer, and men in every walk of life are seeking to reach the top rung of the ladder in their particular speciality. What is the result? Better work, better knowledge, advancement in science, art and literature.

The same improvement that has been marked in all other pursuits has been made by the clothing specialists. Men of talent and education and of genius for hard work have studied the science of producing "ready-to-wear" clothes until today the acme of perfection has been reached. And THIS STORE, having the KNOWLEDGE and EXPERIENCE, is enabled to choose the best, and places before the public of Los Angeles the finest selections from AMERICA'S BEST WHOLESALE TAILORS.

Here Are Values and Styles In High Class Attire

CEES THIRTY OF HIS DOUBLES.

HOME BY JOKERS.

They Take Him on a "Sightseeing" Auto Trip Which Landa Him at City Jail-President of Mt. Wilson Toll Road Company Puts Ban on

two brass-buttoned coppers for exceding the speed limit, and Linnard
was asked to put up file ball by the
new Chief of Police Favour.

"I refer you to my friends for your
eccurity," said Linnard, pointing
through the jail window. Chief Facour gave one glence at the rollicking
tuto and refused.

Autos, carriages and a crowd of
cople on foot followed the welcoming
committee as it finally continued its
yay to the Maryland, where a light
anquet was served in the buffet.

And the band played on.

The tribute to Mr. Linnard was a
sappy combination of the ridiculous
and the serious. Charles E. Race read
a message of welcome and with much
custo presented the guest of honor
with "the freedom of Pasadena," as
exemplified in a gismnite golden key.
The guest was also passed a gold
orick on a silver tray as significant
of his rumored attempts to upset the
wheat market of the Chicago grain

POLICE CHANGES.

Chief of Police Favour states that he will recommend to the city commissioners the appointment of George W. Longley, John E. Pierce, J. O. ReyLongley, John E. Pierce, J. O. Rey-

shadow of the handsome memorial statue, services were held. At noon a delegation from the G.A.R. led the flower-ladened populace to Mountain View Cemetery, where the graves of the soldlers were decorated. In the evening memorial services were held in the First Methodist Church. The principal addresses were made by President Gates of Pomona College and Rev. Stevens of Santa Monica. To John A. Goodrich and A. Kingsley Stevens is largely due the success of the day.

LESSER HAPPENINGS. Tonight at Throop Hall Victor Buil-lou, Edwin Van Zant and Phillip Cass Buzz Wagons.

Signature of the Board of Trade and manager of the Maryland Rotel, as a public-spirited citizen of C. H. Richmond.

FOREMAN'S NARROW MISS. Caving of Well Shaft on Ranch at Duarte Almost Fatal to Man

DUARTE, May 20.—A. Miller, ranch foreman for John Bradbury, narrowly escaped a horrible death yesterday through the caving in of a well. The pumping plant has been in operation years, and it was observed last

summoned and volunteered to investigate.

He had descended the shaft ladder
some distance when he felt the casing
tremble and give. Notwithstanding
a hurried retreat to the surface, he
barely reached the curb before the
timbers crashed and the shaft filled
with earth and boulders to within a
few feet of the top.

The well supplied about twenty
inches of water, and will immediately
be replaced by another one beside, it.

LAND AND SEA HONORS. Observance At Santa Monica Includ Strewing of Waves and Exercises At Cemertery.

SANTA MONICA, May 30.-Men the newly organized Grand Army pos

the newly organized Grand Army post, and were participated in by citizens generally.

Headed by the police force and the Boys' Band, the procession formed-in front of the City Hall and marched to the North Beach auditorium, where the memorial, musical ands literary programme was enacted. Among those represented in the line of march and participating in the exercises were the members of the City Council Stephen Jackson Grand Army Post, Civil War Veterans, Veterans of the Navy, MacArthur Camp, United Spanish War Veterans, pupils representing the high and public schools and the California Military Academy and members of Premont Circle, Ladies of the G.A.R. The memorial address was delivered by A. F. Parker of Los Angeles, and following it the veterans and their friends marched onto the pier and cast flowers upon the waters.

This service concluded, the line of march was re-formed and all proceeded to Woodlawn Cemetery. Here the Grand Army ritual was carried out in the decoration of the graves of the veterans who are sleeping there.

WOULD BREAK BARRER.

WOULD BREAK BARRIER. Property owners have petitioned for Property owners have petitioned for the opening of Third street southward from Colorado avenue to Front street. This would earry the street through the old park of the Southern Pacific and would, so the petitioners believe, go far toward breaking down the barrier that separates South Santa Monica from the city proper. From Ocean avenue, which is in reality First street, there is no means of ingress or egress until Fourth street is reached. The prayer contained in the petition is a popular one and has been referred to the City Council's Committee on Streets and Public Property,

SANTA MONICA NOTES

The Casa del Mar Hotel on Pier avenue, sold a few days ago by Abner Ross for a stated cash consideration of \$30,000, will be known hereafter as the Savoy. The management will be by an incorporated company.

This beach is making an active campaign, to secure the summer encampment of the Uniform Rank of the Fractral Brotherhood and that of the Uniform Rank of the Knights of Pythias. The former organization expects to spend ten days in the Seventh-

HOLD DAY MORE SACRED.

ercises Than Heretofore.

LONG BEACH, May 30.-Between 5000 and 10,000 visitors witnessed Memorial Day exercises here. Business in the city was generally suspended, and there was less of an amusement

before a large species process.

several weeks. I consulted the doctor who told me that I was suffering from neuralgia. The sight of my right ey was affected, so that at times I coul not see out of it, while both eyes was license.

R. H. Blatt has resigned as carrier on rural route No. 1, and his successor. Earl Scroggins, will take charge June 1. The route covers twenty-two miles of territory, served daily.

The biggest stingaree caught off the wharf in years was hooked yesterday and landed. It weighed sixty pounds and is three and one-half feet across the broad part, with a sting attachment four inches long.

BATHS FREE FOR DAY.

Two Watering Places at Venice Give for it.

VENICE. May 20.—Today's page in the diary of bath-house difficulties contains an entry of an unusual nature. Free baths were to be had at both the surf and plunge watering places. The Kinney Company provided suits, soap, towels, tubs and hat and cold fresh

plication, should one be made, to the board.

The Kinney Company decided to give free baths rather than to keep the attraction closed on a fete day, and as a result the plunge accommodated a large number of bathers during the day. This action of the City Trustees is accepted by the Kinney people as but one more straw showing the attitude of unfriendliness toward the Venice promoters. The board, on the other hand, resents the imputation that animus characterizes its action in any respect.

It is stated that the Venice Bathing Company already holds a city license covering the operation of the two bath-

BURBANK, May 20.—Mrs. Scott of Roscoe had a serious accident Wednesday. While on her way to Burbank her horse became frightened at the train. Mrs. Scott and children were thrown from the buggy, while the horse ran against a telephone pole, killing the animal immediately. Mrs. Scott and children escaped without serious injuries.

man his inherent right to labor for whom he pleased. Following the addresses the girls of the Covina schools decorated with garlands the graves of veterans, first draping with flowers the monument for the "unknown dead." Over each grave a salute was fired by the Covina High School Cadets, under command of Capt. Wallace Reed. An organization was also effected having for its aim the perpetuity of Memorial Day, of which Rev. Mr. Stevens was made president and Capt. Mussey secretary.

nate vote in favor of bonds at..... difference between the total registration and my estimate tose cast is the number of citizens who have so little civic pride neglect to vote on a question of vital importance to Los

Lydia E. Pinkham's Vegetable Compound

has been the standby of American mothers in preparing for childbirth.

Note what Mrs. James Chester, of 47 W. Sith St. New York says in this
letter:—Dear Mrs. Pinkham;—"I wish every expectant mother knew about
Lydis R. Pinkham's Vegetable Compound. A neighbor who had learned
of its great value at this trying period of a woman's life urged me to try
it and I did so, and I cannot say enough in regard to the good it did me.
I recovered quickly and am in the best of health now."

Lydis R. Pinkham's Vegetable Compound is certainly a successful
remedy for the peculiar weaknesses and allments of women.

It has cured almost every form of Fernals Complaints, Dragging Sensations, Weak Back, Falling and Displacements, Inflammation, Ulcerstions and Organic Diseases of Women and is invaluable in preparing for
Childbirth and during the Change of Life.

Mrs. Pinkham's Standing Invitation to Women
Women suffering from any form of female weakness are invited to
write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

ALL GRAVES ARE DECKED.

The isading merchants closed their rese of business at noon in honor of mortal Day, and with their empty, participated in the public celesties. During the morning wagons of flowers were carried to the attributed them among the distributed them among the remembered. When these leand and the public and sailor resting places in first remembered. When these leand area for other graves were the and by noon there was not a mad in the cemeteries of this valley had a sprig of greenery and bloss resting tenderly upon it.

the afternoon the veterans of the and Spanish wars turned out in add. Civic bodies were represented.

When these conditions are time to the best interests of the flaboring classes. The affirmative speakers were Warren Tucker, Thomas Gore and Harold Sherman and the negative speakers were Harry Person, Miss Maud, McCartey and Harold Avery. Mr. Person was unanimously given first place, while second honors went to Warren Tucker. The judges were Mrs. L. Worthington Green, C. L. Partridge and Rev. R. L. Weich.

Out of Respect for Veterans City Council Refuses to Permit Show to Be Given Till Late in the Day When Exercises for Fallen Veterans Are Concluded.

(BY DIRECT WIRE TO THE TIMES.) SANTA ANA, May 30.—[Exclusive Dispatch.] Out of respect to the veterans, the City Council refused to allow performances by C. T. Burch's circus here today until after the Memortal Day services at the operahouse were concluded. The circus was granted a license to play here but it was stipulated by the Council that no performances could be given until after 4

DIES SUDDENLY. Lyman Chapin, aged \$2 years, a pion-eer real estate man of this city, died suddenly at his home this morning. He was taken ill while out walking and died within an hour, heart trouble be-ing the cause. He was in his office up to yesterday.

OCEANSIDE.

OCEANSIDE.

OCEANSIDE May 30.—Civic and patriotic bodies joined in Memorial Day exercises at the operahouse. Participating in the programme were Miss Sibyl Spencer, George Anderson, Miss Margaret Woodford, appearing in solos; Miss Marguerite Brannen, Miss Margaret Woodford, appearing in solos; Miss Marguerite Brannen, Miss Margaret Wood and Miss Gladys Couts in recitations; T. V. Dodd, who spoke, and Rev. J. A. Wood, and benediction by Dr. Van Deerlin. Led by the drum corps, a procession was formed, which marched to the pier, where the ceremony of strewing flowers upon the waves took place. Accompanying this observance was the singing of "Columbia" by a male quartette, consisting of Messrs. Payne, Dodd, Morrison and Patterson, with Dr. Belt as cornetist. I.O.D.F. Cemetery was visited, and the soldiers' graves were decorated. Principal W. H. Hensey delivered an oration. A selection by the male quartette was sung, and a soly by Mr. Anderson followed, the benediction by Rev. J. A. Wood closing the exercises of the day.

COPPER STOCKS

THE LONDON-ARIZONA MINE

The SAFEST, QUICKEST and MOST PROFITABLE thing in the whole field of industrial investment at

Good Copper Stocks

For instance, here is the record of a few. All but one of these (the North Butte of Montana) are, you may say, right at the back door of Los Angeles, over in Arizona and Nevada and quite within the city's proper and natural sphere of financial influence, and the profits earned by the Arizona mines mentioned amounted last year to \$30,000,000. (Just think of it)—almost thirty-one millions.)

And yet our beautiful and ambitious city got almost nothing out of that vast sum—all because we have been absorbed in the fascinating occupation of swapping jack-knives among ourselves and declined to interest ourselves in the great copper mines in the great mineral empire of Arizona, all of which by the natural laws of finance and trade should belong to Los Angeles.

Our real estate values would be safer and our financial institutions would be stronger, if we had the annual profits of Arizona's great copper mines coming to reinforce them.

Well, within three years the great

London-Arizona Copper Mine

should rank with the best in that great red-metal territory.

The conditions are so favorable that Mr. Charles E. Finney, the founder of the enterprise, who was for years the general administrative manager of all the vast mine and smelter interests of the Guggenheims in the United States and Mexico, and naturally from such an experience a man of exceedingly conservative and responsible statement, estimates that when the property is put in condition to smelt 3000 tons of its ore a day, it can earn 100 per cent. a year on the price at which the first offering of treasury stock is made—and that it can do that (this is the notable and numericable feature of the statement) with

Copper Selling at 13' Cents a Pound

It couldn't do that unless it could produce its finished copper at as low a cost as any mine in the world—and the cost of producing the finished metal, laid down in New York, is the final test of the value of a copper mine.

The London-Arisona property covers 1280 acres of a copper deposit which good judges assert is

The Biggest Thing, The Quickest Thing And the Easiest Thing

In copper over opened in Arizona. It can begin to earn dividends very soon. But it cannot earn the big dividends mentioned till the enterprise is in full operation. mentioned till the enterprise is in full operation.

Here is a list of copper mines and prospects with whose record the future of the great London-Arizona may be

North Butte, Montana 9,000,000	15.00	103.00	61,800,000
Giroux Consolidated, Ely, Nevada 5,000,000	5.00	9.00	9,000,000
Camberland, Ely, Nevada 5,000,000	5.00	10.00	10,000,000
Nevada Consolidated, Ely, Nevada	5.00	16,00	20,800,000

These last three are new Nevada copper companies, that have been listed within the last year and a half.

They are very fine properties, with large and reliable bodies of low grade ore that has to be concentrated before it

can be smelted. They furnish a favorable standard of comparison for the London-Arizona in that they are all still in the prospect stage, and neither of them has ever paid a dividend or produced a pound of finished copper. They are, nevertheless, great copper properties, and their present market price is not in excess of their real future value as profit-earners. The best one of them has less than half the acreage of the London-Arizona, and they are not likely to be able to earn dividends sooner than the London-Arizona. The present market prices of those three really sound and valuable copper stocks therefore furnishes a safe indication of the prices that purchasers of the London-Arizona stock may hope to see their holdings rated at within a very few months, as soon as the company is in a position to have its stock listed on the New York and Boston Exchanges.

Those great Ely properties, once they reach the dividend-earning stage, will of course be rated very much higher than at present, but we confidently believe the London-Arizona will pay dividends as soon as either of them.

With equal confidence we believe that 30 to 40 months hence the London-Arizona will rank fully up to the present quoted market values of those two most admirably young properties—the North Butte and the Calumst and Arizona.

Those are two of the finest copper properties of the younger group of first-class producers. They share with the London-Arizona the fundamental advantage of a management thoroughly experienced in all the technical and administrative business of producing copper.

They share also with the London-Arizona the advantage of possessing a vast and reliable tonnage of direct-

They share also with the London-Arizona the advantage of possessing a vast and reliable tonnage of direct amelting ore of good average grade.

It cannot therefore be fairly questioned that the London-Arizona will presently be able to share equally with them the public confidence as to both its management and its resources which makes them favorite investment stocks. They are two among a very small number of companies able to produce copper close to the very minimum cost, and it is our candid belief that, on the same scale of production, the London-Arizona will be able to lay its finished out put down in the New York market a shade lower than either of them.

It is hardly necessary to mention that the cost of the product laid down in the market—the price at which it can be sold without any loss whatever—is the final and complete test of the value of a copper property.

As we assert and insist that in from—30 to 40 months the London-Arizona will rank with the Calumet and Arizona and the North Butte, we give here their record to date, that there may in the future be no question as to precisely what we claim for the London-Arizona.

The Calumet & Arizona

The North Butte

Location, Bishes, Arizona.

Organized, March, 1901. Property, twelve claims.

Capitalization, \$3,500,000.00. Bhares, par \$10.00.

Works 636 men at the raines.

Works 636 men at the raines.

Average copper content of ore, 7.52 per cent.

Cost of preducing, 1905, 750 cents a pornd.

Block first soid at \$5.00 a share or at the rain of \$1,500,000.00

The whole property.

March, 1971, stock soid at \$550 a share or at the rate of \$45,-750.00 cents a pornd.

Average copper centent, 2 per cent.

Works 690 men. Cycan no treatment plant whatever—has a contract with the great Washes plant of the Anacousta to treat its ores.

For of shares, \$15,50, 500 January 7, 1507, at \$650 a chare.

The London-Arizona Copper Company

Is located at the junction of the Gila and San Pedro rivers in Gila county, Arizona, three miles from Phosnix and Eastern R. R. It contains 68 claims (about 1280 acres), and has, we believe in perfect good faith, a dependable ore body equal to 83,000,000 tons of a self-fluxing, smelting ore that will average at least 5 per cent. (100 pounds the ton) in copper content—a perfectly self-fluxing ore, observe, that can be mined unusually cheaply, transported from the mine to the smelter for 5 cents a ton and dumped right into the furnace without any of the usual expense

of "mixing"

We desire most especially to avoid exaggeration in presenting this great property to our clients.

FINAL ANALYSIS OF AN ALKALIAR.

Driven Into a Corner by Byron Erkenbrecher, Alkali Sammy Desperately Dodges and Plunges Into a Fog of Falsehood.

R. BYRON ERKENBRECHER yawp about Gen. Otis and the San Fernando Valley lands.

D. Hooker's anti-water paper.

Standard Park, fair and unbiased and the san desired from authoritative sources.

Mr. Erkenbrecher's quest was hopemarked from authoritative sources.

Mr. Erkenbrecher's quest was hopemarked from the start as Editor Clover.

DEPERTINENT SLANDER.

The inpertinently repeats his silly upon Gen. Otla. The answer that above is that Gen. Otla does an isnda or stock representing in San Fernando Valley: that hot deny the fact if he did; he would not apologise for or extent in the would be no reason for limits for owning land in San for owning land in San transactions for owning land in San transactions for owning land in San transactions for owning land in San in the did not inform The Times the did not inform The Times in private business transactions are distorial writer naturally that he retained his interest into the fire in the fire is not needed."

OUT OF HIS OWN MOUTH.

Replying to Mr. Erkenbrecher's request for authority for assertions, in contradiction of expert hydrographers, that ample water supply is available in the vicinity of Los Angeles, Clover granted, and there is in Clover's frantic.

Automobile Volunteer Donation Coupon.

WENS RIVER CAMPAIGN COMMITTEE

and argues that all the water of San Fernando Valley should be taken away from the ranchers by the city. Last October he incited the ranchers of San Fernando to resist forcibly any attempt by the city to enforce injunctions against them, and declared that if the court compelled them to cease pumping water adjudged to belong to the city, the valley would "revert to a desert." Arguing against taking more water from San Fernando, Clover said last October: "This city needs more water and needs it as soon as it can be obtained. An ample supply can be had from Owens River, or even nearer at home, at a cost well within our means." He was talking for Hooker.

FALSIFIES THE EVIDENCE.

Mr. Erkenbrecher asked:

Do you prefer to take the statement of an anknown rancher to the result of every caremore than 20,000 inches. The Times said:

"The flow in the conduit is estimated by the engineers at 28,000 inches."

On September 5, 1905, The Times said:

"The flow in the conduit is estimated by the engineers at 28,000 inches."

The flow in the valley. Presently, the claim tropped to 71,000 inches, and, finally, to tropped to 71,000 inches, and, finally, to 1600 which is the present figure. The claim tropped to 71,000 inches, and, finally, to 1600 which is the present figure. The claim tropped to 71,000 inches, and, finally, to 1600 which is the present figure. The claim tropped to 71,000 inches, and, finally, to 1600 which is the present figure. The claim tropped to 71,000 inches, and, finally, to 1600 which is the present figure and, finally, to 1600 which is the present figure. The claim tropped to 71,000 inches, and, finally, to 1600 which is the present figure and, finally, to 1600 which is the present figure. The claim tropped to 71,000 inches, and, finally, to 1600 which is the present figure and, finally, to 1600 which is the present figure. The claim tropped to 71,000 inches, and the city had acquired 30,000 inches, and the city had acquired 30,000 inches. The court of the conduit is estimated by the engineers at 28,00

Mr. Erkenbrecher asked:
Do you prefer to take the statement of an unknown rancher to the result of every care, to an analysis, made for you as well as other, by expert chemists? You once admitted that the quality of the water is good. The United States government experts may it is. What scientific foundation have you for intimatic that water taken at the proposed litake is unfit for domestic use?

The answer is a masterplece of dodg-line subbling and forthright falsify. are for the use of water during the Irrigating season. and from careful measurements will yield, during such seasons, to the city a continuous flow during normal vers, of about 11,000 inches. In addition to these rights, the continuous flow during normal vers, of about 11,000 inches. In addition to these rights, the continuous flow and the same right and the same right and the same right and the city would have the right to divert winter waters which now during the son-irrigating season, and also the right to regulate the flood waters flow the right to regulate the flood waters of intakes. Combining these flows the point of intakes. Combining these flows and by so regulating the flood waters, the city would receive during normal years a mean annual flow of from 15,000 to 20,000 inches. With 180,000 acre feet storage at Long Vai-would receive flows and the city of the continuous flow of from 15,000 to 20,000 inches. With 180,000 acre feet storage at Long Vai-would receive for 20,000 inches.

which was passed by the last Legislature. Among those admitted was Dr. Win Wylie, now a practicing physician in Phoenix, who for several years was an attorney of record in Los Angeles. The first session of a Juvenile Court, under a new territorial law, was held lately in Globe by Judge Nave, result in the community, while Cason was ing in the commitment of two colored lads to the Territorial Industrial School at Benson until they have reached the age of 21. Such commitments heretofore have been made by the Probate Court.

Mill End" Sale Crockery

A Full Carload--Twenty Thousand Pieces--Handsomely Decorated China Prices Named Do Not Represent One Fourth the Actual Value

This big special sale of a full carload of prettily decorated china is the result of a big purchase by our local buyer, who has just returned from his annual trip to Europe, as well as the largest factories in America; every piece of this ware is positively the finest of domestic manufacture; every piece is thoroughly "GUARANTEED THAT IT WILL NOT CRAZE."

These goods are "mill ends"—for instance, when the factory receives an order there are always made up from one to two dozen extra pieces to guard against breakage and to insure enough perfect pieces with which to complete the order; for this reason at the end of the season's run there are thousands of perfect pieces of the very best china—hundreds of different kinds, and from one to a dozen pieces of each kind; these are "mill ends," and for "spot cash" no reasonable offer is refused by the factory; this special purchase and sale includes the entire output of two of the largest mills in the country, and the purchase price just about covers the actual cost of the "burning" at the kiln. Splendid china for BEACH COTTAGES—HOTELS—RESTAURANTS, as well as all home uses; the prices tell their own story.
